Dear Mr Bhurji

Mediation

I write further to the recent mediation that you conducted for my clients.

A resolution was required as this matter had gone on for nearly two years; legal fees were mounting up, whereby the preparation my firm would have had to do for trial would have resulted in considerable costs for the clients in addition to representation at trial and the costs of the same.

Step father and step sons were in dispute over various assets worth considerable sums of money. My clients and I were very impressed with the resilience, pre-mediation preparation by you. I was also impressed with how you focused the parties on a solution and indeed facilitation of the same.

We choose you as we were impressed with your CV which displayed your extensive mediation experience, which bore fruition, and it is not always the case when selecting a mediator simply from their CV's.

Thank you for your kind assistance and I would happily recommend you to other law firms.

Yours sincerely,
